## Building the English Classroom

### Foundations, Support, Success

**Bruce M. Penniman**

After nearly four decades in the classroom, Bruce M. Penniman knows what works (and what doesn't!) when it comes to teaching English.

Penniman draws on his own experiences—his successes, of course, but also the mistakes he's made and the misgivings he's had—to offer guidance and support for managing the myriad demands of teaching secondary English.

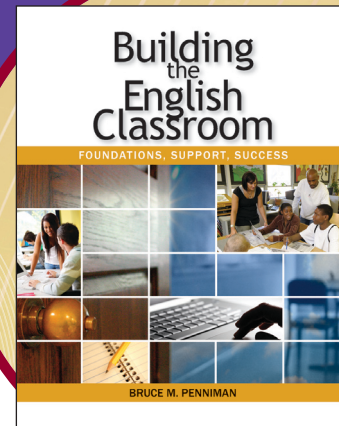

Focusing on all aspects of building a successful English classroom, Penniman offers unique and proven strategies on topics such as:

- Planning for the long term
- Designing writing programs and literature curricula
- Creating effective assessment systems
- Implementing instructional strategies for writing, literature, media/technology, and “basic skills”
- Examining the curriculum through the lens of multiculturalism
- Attending to the needs of all students—especially those who require accommodations
- Giving back to the profession: pursuing a professional life outside the classroom
