

Supporting English Language Learners

The National Council of Teachers of English can help with your professional development.

NCTE's Pathways for Teaching and Learning with English Language Learners is a yearlong professional development experience designed to build teacher knowledge and advance student success by focusing on questions such as:

- In what ways can we plan and facilitate students' language development while engaging learners in rigorous content?
- How can we create effective learning environments that facilitate student achievement?
- How can we provide opportunities for students to use language, learn language, and learn about language?
- How can we support students in taking responsibility for their learning?
