

In Memoriam
(12/1/2008-9/14/2009)

Most teachers pass away as they have lived, quietly, but with deep effect upon those to whom they are closest. They are mourned and celebrated by their families and students, privately, often without public announcement of their loss. The profession and the world feel the loss of every individual who has spent so much of a life's energy giving, to students, to the future, whether or not we can list them by name. A few such losses from the past year—those for whom we had knowledge—are listed below. We will miss them.
