Pathways for Teaching & Learning with English Language Learners

http://www.ncte.org/pathways/ell
Learning Design

Organized around questions suited for middle and high school teachers from across all content areas

✓ In what ways can we plan and facilitate students’ language development while engaging learners in rigorous content?

Learning Strands:
- Establishing Purpose
- Using Academic Language
- Effective Instructional Strategies

✓ How can we create effective learning environments that facilitate student achievement?

Learning Strands:
- Cultural Awareness
- Connecting Students to the Curriculum
- Exploring Students Interactions

✓ How can we provide opportunities for students to use language, learn language, and learn about language?

Learning Strands:
- Learning Language Across the Content Areas
- Learning in the Company of Others
- Engaging Learners Through Multimodal Instruction

✓ How can we help students actively engage in learning?

Learning Strands:
- Facilitating Meaning Making and Critique
- Inviting Choice and Inquiry
Learning Design

Begin by watching **classroom videos** and reflecting on/discussing guiding questions

Choose from a variety of podcasts, professional readings, web seminars, and web resources in the **Learning Resources**

Apply new learning in your classroom with sample assessments and planning/teaching ideas from the **Applied Learning Resources**
We continually add the latest publications and resources on ELL. Here's what you can expect to have at your fingertips on your schedule:

- **Videos** of classroom instruction across the academic content areas
- **Podcasts** from experts in field
- **On demand web seminar events**
- **Professional readings** from across NCTE publications
- **Sample assessment tools** and planning/teaching ideas
Opportunities for Collaboration and Reflection

Pathways offers multiple opportunities for engaging collaboration with colleagues and meaningful personal reflection.

Contribute to conversations in public and team discussion forums.

Share files with colleagues in private team repository.

Document thoughts and reflections with your My Notes tool.

Document reflections and new learning with the Pathways Learning Log.
Pricing and Enrollment Information

Team or Individual Enrollment  https://secure.ncte.org/pathways/Default.aspx

- The Team enrollment option supports the collaborative needs of teams and provides support for the site facilitator. **Team pricing** is based on the number of team members. For example, the discounted cost of licensing for a team of 10 for one full year is $2075. Add $157.50 for any additional team members over 10.

- The Individual enrollment option is intended for those educators who wish to engage in a deep professional learning experience but do not have such opportunities offered through their school. **The cost for individuals is $149 (member)/$199 (non-member).**

Can I Earn Credit?

Yes! A graduate continuing education credit option is available for an additional charge. Visit [http://www.ncte.org/pathways/credit](http://www.ncte.org/pathways/credit) to learn more about the credit option.

Where Do I Go To Learn More?
